

Cetis Announces Broadsoft BroadWorks SIP Interface Interop Certification.

Colorado Springs, CO – December 8, 2015 –Cetis, Inc., manufacturer of Teledex®, TeleMatrix®, and Scitec® brand analog and VoIP telephones, has announced that Teledex and TeleMatrix brand VoIP hotel phones have been interop-certified by BroadSoft, a leading global provider of Unified Communications and Collaboration (UCC) services.

Designed specifically for hospitality applications, a number of Teledex and TeleMatrix hotel phones by Cetis have been validated to be interoperable with the BroadWorks SIP interface, including Teledex M Series, Teledex E Series, Teledex I Series, TeleMatrix 9600 Series, and TeleMatrix 3300 Series.

"Because BroadWorks, is a Voice over Internet Protocol (VoIP) applications platform that enables service providers to deliver basic and enhanced voice services, hotel properties and management companies may take advantage of free hotel to hotel calls and shared staff resources if needed, notes Bryce Bowman, Vice President of Sales, Cetis, Inc.

According to David Johnson, Senior Sales Director, Cetis, Inc., "Broadsoft cloud-based telephony services offer enhanced business continuity, flexibility and scalability for hotels globally. And because SIP trunks give you more and cost less, the decision to move is often an easy one," he adds.
