Cetis

M Series

Sophisticated styling.
Smart technology.

Optional built-in Wi-Fi access point.

Pair smart devices via Bluetooth technology.

USB charging ports for phones and tablets.

M Series

Choose single or two-line corded, cordless, analog, or VoIP configurations.

Matching trimline available.

More than just a telephone.

Merge contemporary, sophisticated styling with smart technology and what happens? You establish a new definition for hotel guestroom telephony. Teledex M Series is more than just a telephone: it boldly merges guest device communication with desktop telephony for game-changing in-room connectivity.

Available in single and two-line, analog, VoIP, corded, and cordless configurations, M Series pairs with a smart device to dial and receive calls on the guestroom telephone, to stream music from a smart device over the phone speakers, or to play a smart device wake-up reminder via the phone speakers.

Two conveniently located M Series 2.1 Amp USB charging ports support smartphone and tablet device recharging. AutoSync M Series cordless RediDock handsets automatically register with the base unit when in the cradle to eliminate connection failures with misplaced handsets.

The optional built-in M Series wireless access point supports multiple smart devices in the guestroom. Or, the guest may plug into the telephone Ethernet port for secure online communications.

Supports multiple front/back facing RediDock remote handset kits.

M Series Specifications

- Available in single- and two-line, corded, cordless, analog and VoIP configurations.
- Bluetooth handset pairing.
- Two high-current USB charging ports support devices up to 2.1 Amp.
- High-fidelity stereo speakers.
- Factory-installed optional Wi-Fi access point.
- Patented OneTouch voice mail retrieval technology.
- Compatible with all major PBX systems (Siemens, FSK, or Reverse Polarity message light options available).
- Five or ten guest service keys.
- AutoSync cordless handset pairing.
- Two 10/100Mb switched Ethernet ports (WAN/LAN) for wired guest connectivity/HSIA.
- Three-way conferencing on two-line models.
- Standard configuration is metallic gray faceplate with black base and handset.
- Optional custom color faceplates.

E Series

Micro-footprint.
Contemporary design.

Supports multiple handsets per base.

OneTouch voice mail retrieval.

Micro-footprint space-saving design.

E Series

Choose single or two-line
corded, cordless, analog,
or VoIP configurations.

Small is the new big.

Amazingly big on features, yet surprisingly small in size. Teledex E Series phones are 40% smaller than standard guest room telephones, creating an entirely new category in hotel telephony design. E Series flat-panel, compact style adds a touch of elegance to any room without compromising functionality.

Originally styled to meet the limited space and energy requirements aboard cruise ship cabins, E Series micro-footprint phones require minimal surface area on the desk and nightstand. Interior designers appreciate the sophisticated extra-thin, ultra-stylish body while guests enjoy the familiar, comfortable feel of a sleek, modern handset.

Engineered specifically for hospitality applications, E Series phones feature patented OneTouch voice mail technology for hands-free auto-dialing and retrieval, up to 12 guest service keys, and customizable faceplates. Available in single and two-line, analog, VoIP, corded, and cordless configurations.

Give your guests the elegance they deserve.

E Series Specifications

- Available in single- and two-line, analog, VoIP, corded, and cordless configurations.
- ETrim and RediDock remote cordless handset models available.
- Professional quality speakerphone.
- Patented OneTouch voice mail retrieval technology.
- Multi-function message-waiting indicator compatible with all major PBXs (Siemens, FSK, or Reverse Polarity message light options available).
- Choose up to 7 (VoIP) or 8 (analog) configurable guest service keys.
- Cordless phones support up to three additional handsets per base.
- EasyAccess™ data port.
- Three-way conferencing on two-line models.

I Series

Small footprint.
Ergonomic design.

Compact footprint saves on space.

OneTouch voice mail retrieval.

Comfortable ergonomic handset.

I Series

Choose single or two-line
corded, cordless, analog,
or VoIP configurations.

**The original small
footprint phone.**

Teledex I Series (formerly Teledex
iPhone®) is the original small
footprint telephone built specifically
for the hospitality guestroom.
Designed to embrace the sleek style
of the modern hotel guestroom,
I Series provides a familiar user
interface for your guests in your
choice of single and two-line, analog
and VoIP, corded and cordless
configurations. Choose 0, 3, 5, or
10 programmable guest service
keys, an optional speakerphone, and
our patented OneTouch voice mail
retrieval technology.

I Series cordless telephones reduce
the need for multiple telephone jacks
in the guestroom, supporting up to
3 additional AC-powered RediDock
charging stations, and providing
guests with a cordless home-like
environment. Like all of our cordless
Teledex phones, I Series phones are
also available with optional battery
backup for use during power outage
situations.

I Series Specifications

- Available in single- and two-line,
  analog, VoIP, corded, and cordless configurations.
- Trimline and RediDock models
  available.
- Professional quality speakerphone (optional).
- Patented OneTouch voice mail retrieval technology.
- Dual NEON/LED message-waiting indicator compatible with all major PBXs
  (Siemens, FSK, or Reverse Polarity message light options available).
- Choose up to 11 (VoIP) or 10 (analog) guest service keys.
- Cordless phones support up to three additional handsets per base.
- EasyAccess™ data port.
- Three-way conferencing on two-line models.

Beautifully engineered.

From bold design, smart features, and legendary performance, TeleMatrix 9600 Series cordless and 3300 Series corded phones make perfect sense for you and your guests. Flat panel design complements the look of flat screen television sets in the room. Choose from 7 standard or custom color handset accents to match any room décor and coordinate style with functionality.

Features include patented OneTouch voice mail technology for hands-free auto-dialing and retrieval, and an integrated Ethernet pass-through port for guest connectivity. AutoSync pairing automatically registers remote 9600 Series cordless handsets with the base unit when in the cradle to avoid failures from misplaced handsets. Our optional battery backup feature also helps assure guest connectivity during power outages.

9600/3300 Series Specifications

- Available in single and two-line, analog and VoIP, and trimline configurations.
- Optional professional quality speakerphone.
- Patented OneTouch voice mail retrieval technology.
- Multi-function message-waiting indicator compatible with all major PBXs. (Neon/LED are standard. Siemens, FSK or reverse polarity optional.)
- Zero, five, or ten configurable guest service keys.
- Cordless phones support up to 3 additional handsets per base.
- Optional remote cordless handset battery backup.
- Handset locator on cordless models.
- Integrated RJ45 Ethernet pass-through for guest connectivity.
- Three-way conferencing on two-line models.
- Non-slip base.

Aegis-08 Series

Trusted brand.
Economy pricing.

OneTouch voice mail retrieval.

Up to 10 guest service keys.

Lobby model available.

Aegis-08 Series

Choose single or two-line
corded analog configurations.

Stylish Aegis-08 Series telephones are not only equipped with a range of features normally reserved for much more expensive phones, but are available at competitive price points. These rugged, trouble-free phones have been the standard for economy branded hotels for many years.

Aegis-08 Series analog corded phones are available with 0, 3, 5, or 10 programmable guest service keys, an optional speakerphone, dataport, and our patented OneTouch message retrieval technology.
