

BEAUTIFUL FROM EVERY ANGLE.

INTRODUCING E SERIES, THE HOSPITALITY INDUSTRY'S FIRST SUPER-MODEL.

Designed and engineered in America, our stunning new flat panel E Series telephones provide the perfect complement to the latest flat screen televisions in your guestrooms. From their ultra-thin chassis to exceptional pedestal/wall mount versatility, E Series phones are amazingly big on features, yet surprisingly small in size. And since their smaller footprint requires less plastic, we use less energy in the manufacturing process, so our impact on the environment is smaller as well. Available in analog or SIP corded and cordless configurations, stylish E Series telephones are guaranteed to fast-forward your guestrooms into the next generation of design décor.

Small is the new big! Find out how small. Call +1 719 219 8899, email Cetis@CetisGroup.com, or visit CetisGroup.com for details.
