M SERIES

TELEDEX M SERIES

More than just
a telephone

Sophisticated styling. Smart technology.

Teledex M Series establishes a new definition of hotel guest room telephony. M Series phones are equipped with USB charging ports on the phone and RediDock remote handset kits to support guest smart device charging.

Choose single or two-line analog, VoIP, corded, or cordless configurations, with 0, 5, or 10 guest service keys, and 0, 3, or 6 on the RediDock remote handset kit.

OneTouch voice mail retrieval automates guest messaging. AutoSync registers RediDock handsets with the base to eliminate connection failures and misplaced handsets. A convenient clear plastic faceplate module encapsulates the printed paper faceplate.

M Series is an integral component of a well-designed, contemporary guestroom that delivers an enhanced in-room telephone and media experience.

Matching corded and cordless desktop and trimline models available.

TELEDEX
a Cetis brand

M SERIES BLUETOOTH

M Series Bluetooth analog corded phones keep guests connected via Bluetooth pairing to stream sound, place and receive calls over their own cell network, and charge smart devices via built-in USB charging ports. A high performance stereo sound system replaces stand-alone audio playback devices in the room to save space, and empower enhanced guest telephone speakerphone calls and conferencing.

M Series sound system vs. standard phone speaker

M SERIES HIGHLIGHTS

- One and two-line analog and VoIP telephones
- Enhanced speakerphone
- USB power ports for device charging
- RediDock and trimline available
- Optional Bluetooth handset and audio
- 5 or 10 guest service keys
- Patented OneTouch voice mail retrieval
- Full-length customizable faceplate with plastic overlay
- Desk, trimline and RediDock models
- Optional built-in digital alarm clock
- Available in Black

VoIP AND ANALOG MODELS AVAILABLE

E SERIES

TELEDEX E SERIES

Small is the
new big

Micro-Footprint Space-Saving Design.

Amazingly big on features, yet surprisingly small in size. Teledex E Series hotel phones are 40% smaller than standard guest room telephones, creating an entirely new category in hotel telephone design. E Series flat panel, compact style adds a touch of elegance to any room without compromising functionality.

Interior designers appreciate the sophisticated extra thin, ultra-stylish body while guests enjoy the familiar, comfortable feel of a sleek, modern handset. Engineered specifically for hospitality applications, E Series hotel phones feature patented OneTouch voice mail technology for hands-free auto-dialing and retrieval, up to 12 guest service keys, and full-length customizable faceplates.

Teledex E Series is available in single and two-line, analog, VoIP, corded, and cordless configurations with or without built-in USB charging ports. Give your guests the elegance they deserve.

Ultra-Compact
E100-ETrim
Wall Mount

Originally styled to meet the limited space and energy requirements aboard cruise ship cabins, E Series micro-footprint hotel phones require minimal surface area on the desk and nightstand.

Teledex E Series hotel phones are 40% smaller than standard guest room telephones.

TELEDEX
a Cetis brand

E SERIES USB

Guests are bringing an average of 4 to 5 smart devices into the room. Are you ready? E Series USB hotel phones are equipped with USB charging ports on both analog and VoIP models to help facilitate guest smart device charging and keep them connected. Originally designed to meet the limited space requirements aboard cruise ships, E Series USB phones also require less room on the hotel guestroom desk and nightstand, and consume less energy in the manufacturing process, so the impact on the environment is smaller as well.

Dual USB charging ports

E SERIES HIGHLIGHTS

- One and two-line analog and VoIP telephones
- Optional side USB charging ports
- Contemporary pedestal design
- 0, 4, 8, or 12 guest service keys
- RediDock and trimline available
- Patented OneTouch voice mail retrieval
- Full-length customizeable faceplate
- Desk or wall-mountable
- Available in Black

USB CHARGING PORTS FOR SMART DEVICES

Supports multiple cordless handsets per base unit.

Message waiting light and OneTouch voice mail retrieval.

Attractive styling in a minimalist design.

TELEDEX I SERIES

The original small footprint hotel phone.

Sophisticated styling. Smart technology.

Teledex I Series (formerly Teledex iPhone®) is the original small footprint telephone built specifically for the hospitality guest room.

Designed to embrace the sleek style of the modern hotel guest room, I Series hotel phones provides a familiar user interface for your guests in your choice of single and two-line, analog and VoIP, corded and cordless configurations. Choose 0, 3, 5, or 10 programmable guest service keys, an optional speakerphone, and our patented OneTouch voice mail retrieval technology.

I Series cordless telephones reduce the need for multiple telephone jacks in the guestroom, supporting up to 3 additional AC-powered RediDock charging stations, and providing guests with a cordless home-like environment.

Teledex I Series (formerly Teledex iPhone®) is the original small footprint telephone built specifically for the hospitality guest room.

I SERIES HIGHLIGHTS

- One and two-line analog and VoIP telephones
- Optional speakerphone
- RediDock and trimline available
- Patented OneTouch voice mail retrieval
- 0, 5, or 10 guest service keys
- Optional battery backup (cordless version)
- Full-length customizable faceplate
- Desk or wall-mountable
- Available in Ash and Black

Supports up to three RediDock charging stations.

TELEDEX DIAMOND SERIES

The world's most popular hotel phone

This is the phone that started it all. In fact, more hotels use Teledex Diamond Series hotel phones than any other guestroom telephones.

With over 5 million in service worldwide, this corded analog phone is available in single or two-line models, with up to 10 programmable guest service keys, patented OneTouch voice mail retrieval technology, and an optional speakerphone.

Diamond Series, like all Teledex products, are thoughtfully designed to last for years in the demanding hospitality environment. Expect to see this model in hotel rooms for years to come.

DIAMOND SERIES HIGHLIGHTS

- One and two-line analog telephones
- Optional speakerphone
- Patented OneTouch voice mail retrieval
- Message-waiting light
- 0, 3, 5, or 10 guest service keys
- Full-length customizable faceplate
- Desk or wall mountable
- Available in Ash and Black

Teledex Diamond Series couples styling that fits any decor with the quality and dependability that our customers have come to expect.

TELEDEX D SERIES

The new Diamond

We began the development of Teledex D Series with a fresh new contemporary design, robust ergonomic open handset, and guest smart device USB charging ports, but maintained the same Diamond faceplate area...so Diamond Series owners may easily upgrade with existing faceplates.

D Series sets the new standard in analog corded hotel phone telephony in single or two-line models with built-in USB charging ports, up to 10 programmable guest service keys, patented OneTouch voice mail retrieval technology, and optional speakerphone.

D Series, like all Teledex products, is thoughtfully designed to meet emerging guest preferences, and to last for many years in demanding hospitality environments.

D SERIES HIGHLIGHTS

- One and two-line analog telephones
- Optional USB charging ports
- Optional speakerphone
- Patented OneTouch voice mail retrieval
- 0, 3, 5, or 10 guest service keys
- Message-waiting light
- Full-length customizable faceplate
