

## **Billion Dollar Fallsview Casino Resort Installs M Series Bluetooth Phones.**

Colorado Springs, CO, June 3, 2015 – The billion dollar Fallsview Casino Resort has chosen Teledex M Series Bluetooth hotel phones for installation in the hotel's 374 guest rooms, including 85 suites, of which nine are VIP suites. Cetis channel partner Williams Telecommunications Corporation of Mississauga, Ontario, has completed the installation of 999 M Series Bluetooth telephones.

M Series Bluetooth hotel phones are designed to keep guests connected via Bluetooth pairing to stream sound, place and receive calls over their own cell network, and charge smart devices via built-in USB ports. A high performance stereo sound system replaces stand-alone audio playback devices in the room to save space, and empower enhanced guest telephone speakerphone calls and conferencing. The guest may also pair to the M Series Bluetooth phone to use their own smart device as the remote cordless handset in the room.

A unique, fully integrated M Series Bluetooth customizable plastic silk-screen printable faceplate module supports a unified, contemporary design, while communicating important property information and services to the guest.

M Series Standard models are also available in one and two line analog, VoIP, corded, and cordless configurations with matching MTrim trimline and lobby telephone models.
